

Integra  
Series

# Integra

Series

In just 20 years, Integra chairs have become the standard in correctional institutions throughout the U.S. because they exceed expectations. They are specifically designed for intensive use applications, yet comfortable enough that buyers in other types of facilities are catching on, too. They're easily cleaned and lightweight. They're molded in one piece so you don't have to worry about dangerous wood or metal components coming loose. They're stackable and they pass the rigid California Technical Bulletin #133 Flammability Test.

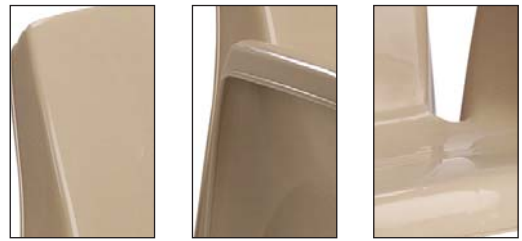

The Integra Series includes both arm and armless chairs as well as a comfortable lounge chair.

# Integra

## Armless Chair

This chair withstands a static load test of over 400 lbs. due to its unique leg shape and 1 1/2" deep "X" ribs molded into the seat bottom. Each chair weighs only 7 lbs. so stacking 15 of them in a seven foot high space is easily accomplished. All Integra chairs are molded from high-impact grade copolymer polypropylene with fire retardant additives. They're also chemically resistant to acetone, alcohol, vinegar, blood, urine, feces and both salt and chlorine solutions. Integra Arm and Armless are both available in six appealing colors.

Imagine being able to gang hundreds of chairs side-to-side without the use of any tools. The Integra Arm Chair features an unique overlapping arm design which allows effortless interlocking for set-up simplicity. Obviously, they can also be used singly in numerous applications throughout dining areas, waiting rooms, dayrooms, offices, training rooms, auditoriums and health care areas. At 9.7 lbs. each, 15 of these chairs easily stack in just six and a half feet of space.

## Lounge Chair

For simple relaxation, reading a book or TV viewing, you can't beat the durability and comfort of the Integra Lounge Chair. Each chair weighs 13 lbs. and you can easily stack 10 of them in just under six feet of space. The Lounge Chair is readily available from stock in Fog Grey and can be ordered with an optional 15" high mini-table/footstool.
